Forecast For Southwest England
Issued by Met Office Exeter
at 0400 on Tuesday 09 Nov 2021

++ Valid for broadcast between 0600 and 1800

Headline:
Dry with some sunshine developing.

Today:
Early fog soon clearing, then mainly dry with some sunshine through the morning. Cloud increasing from the northwest during the afternoon. Patchy drizzle near north coasts later, though the southeast retaining some brighter breaks. Mild with a moderate south-westerly breeze. Maximum temperature 16 deg C (61 deg F).

Tonight:
Thicker cloud will spread more widely over the region, bringing light rain and drizzle to northern and western areas and murky conditions to higher ground. Remaining mild and winds lighter. Minimum temperature 10 deg C (50 deg F).

Wednesday:
A cloudy and damp day with hill fog and some light rain or drizzle, this tending to become much more patchy through the afternoon. Light winds and staying mild. Maximum temperature 14 deg C (57 deg F).

Outlook for Thursday to Saturday:
Staying rather cloudy on Thursday with further patchy drizzle. Breezy on Friday with rain clearing to afternoon sunshine. Sunshine and scattered showers on Saturday. Daytime temperatures still slightly above average.
